Precautions to be taken to avoid harm to the beneficial insects like honey bees and natural enemies of pests :

Toxic for fish. Do not contaminate lakes, ponds and water bodies.

Symptoms Of Poisoning

Similar to those produced by other carbamate cholinesterase inhibitors. Early symptoms are headache, light headedness, weakness and nausea. Later signs are constriction of pupils (may be preceded by transient dilation), blurred vision, abdominal cramps, excessive salivation and perspiration, diarrhoea and vomiting.

First Aid

If inhaled: Move person in fresh air. If not breathing give artificial respiration which includes mouth to mouth breathing and consult a physician.

Skin Contact: Wash-off with soap & plenty of water, if itching, redness, pain persists contact Doctor/physician.

Eye Contact: Flush eye with water for at least 15 minutes. If redness, itching or pain or any other symptoms, consult an eye-specialist/physician.

If Swallowed: Do not induce vomiting until and unless desired by attending qualified doctor and do not give anything by mouth, if person is unconscious. If person is alert, rinse mouth with water and give 1-2 glass of water to drink & if needed consult a physician.

Antidote

If ingested, induce vomiting by administering a spoonful of common salt in a glass of warm water. Repeat this operation until the vomit is clear.

Carbosulfan is a reversible cholinesterase inhibitor. Treatment of poisoning should include the use of atropine. Administer atropine 2-4 mg I.M. or subcutaneous at 3-10 minutes intervals until full atropinisation. Do not use Oximes such as 2-PAM.

Phytotoxicity

Not applicable

Safety Precaution:

Keep away from foodstuffs, empty foodstuff containers and animals feed. Avoid contact with mouth, eyes and skin and avoid inhalation of the insecticide. Wash thoroughly the contaminated clothes and part of the body after handling. Do not smoke, drink, eat and chew anything while handling. Wear full protective clothing while handling. Do not discharge into lakes, streams, ponds and water bodies.

Storage Conditions

- a) Keep the product away from all food stuff, children and household pets.
- b) Store in a cool dry place under lock and key in separate almirahs.
- c) The insecticide storing room will be well built, of sufficient dimensions, well ventilated and well lighted.

Cautionary Statement:

Toxic for fish. Do not contaminate lakes, ponds and water bodies.

Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet

Disposal of used containers, washing from equipment and surplus material :

1. It shall be the duty of manufactures, formulators of insecticides and operators to dispose packages or surplus material and washings in a safe manner so as to prevent environmental or water pollution.
2. The used packages shall not be left outside to prevent their re-use.
3. The packages shall be broken and buried away from habitation.
