Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet

Clothianidin 50% WDG

(Broad Spectrum Systemic Insecticide)

Clothianidin 50 % WDG is a broad-spectrum systemic insecticide and is recommended for its use to control brown plant hopper in rice and jassids and whitefly in cotton. It contains 500 g Clothianidin as an active ingredient in a kg of the product (w/w).

Chemical Composition:	Ingredient	%W/W
Binder and dispersing agent: Sodium alkenesulfonates		10.00 % w/w
Carrier Calcined diatomaceous Earth		Q.S % w/w
Clothianidin	AI	50.00 % w/w
Total:		100.00% w/w

Recommendation

Crop(s)	Common Name of Pest	Dosage/HA		Dilution in Water	Crop Stage	Re-entry Period	Pre Harvest	Frequency
		AI	Formulation					
Cotton	Jassids	15-20	30-40	500			20	
	Whitefly	20-25	40-50	500			20	
Rice	Brown plant hopper	10-12	20-24	500			12	

Note:-

Good Practices relating to pesticide application techniques

Direction of Use

Measure out required quantity of the product and mix it well with a small quantity of water. Add the remaining quantity of water as specified with thorough agitation for total coverage of crop with suitable sprayer.

Weather Condition(in general):

As per 9 (3) Registration

Soil & Water(when ever applicable):

As per 9 (3) Registration

Crop Stage for application:

Application Technique

As per 9 (3) Registration

Equipment Type:

=

NozzleType:

=

Dosage:

for rice on brown plant hopper ai 10-12 gms , 20-24 gms
for cotton on jassids ai 15-20gms, 30-40gms , white fly (ai gms 20-25, 40-50gms)
for cotton on jassids, aphids, thrips & white fly aigms 100-125, 200-250 gms

Instruction for Mixing:

Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet "

Re-entry Period

Manner and Time of Application

Spray insecticide only in the direction of wind blowing

Application Timing

As per 9 (3) Registration

Frequency

Stages during which pesticides should not be applied on any crop :

=

Precautions to be taken to avoid harm to the beneficial insects like honey bees and natural enemies of pests :

do not spray during active bee-foraging period of the day.

Symptoms Of Poisoning

No clinical signs and symptoms of poisoning have been found.

First Aid

If ingested: if person is conscious and alert, rinse mouth with water and give 1 or 2 glass of water to drink. Never give anything by mouth to an unconscious person. Call the doctor. Do not induced vomiting until and unless desired by attending physician.

If inhaled: Take the patient to fresh air and take care of body temperature. If patient is not breathing or breathing with difficulty, give artificial respiration, Consult a physician.

In case of skin contact: Wash thoroughly the affected part of body with soap and plenty of water including hairs and under fingernails. If pain, redness or irritation persists, consult a doctor. All contaminated clothes should be segregated and thoroughly washed with soap and water separately before use.

In case of eye contact: Rinse gently with plenty of water at least for 15 minutes. If pain, irritation, redness or photophobia persists. Consult eye specialist

Antidote

No specific antidote is known. Treat symptomatically.

Phytotoxicity

Non phytotoxic when used as recommended.

Storage Conditions

1. The package containing insecticides shall be stored in separate rooms or premises away from the rooms or premises used for storing other articles or shall be kept in separate almirahas under lock and key depending upon the quantity and nature of the insecticides.
2. The rooms or premises means for storing insecticides shall be well built, dry, well lit and ventilated and of sufficient dimension to prevent environmental contamination with vapour of insecticide.

Safety Precaution:

- 1) Avoid inhalation and contact with skin and eyes.
- 2) Keep away from children, food stuff, animal feed, heat and flame, Store in cool and dry place under lock and key.
- 3) Do not mix the insecticides with bare hands.
- 4) Do not eat, drink, smoke or chew tobacco while spray.
- 5) Spray the insecticide only in the direction of wind blowing and not against it so as to prevent the setting of the drift on body.
- 6) The user should use full protective clothing with rubber gloves, boots. Face should be covered with face shield or dust mask and body should be covered with an overall or rubber apron and hood or hat.
- 7) Do not use as an ultra-low volume spray.

Cautionary Statement:

1. not to be used for any purpose other than those subscribed on label & leaflet.

2. destroy the container after use as directed on leaflet.

3. It is toxic to honey bees, spray application should be avoided during the foraging period of bees.

Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet "

Disposal of used containers, washing from equipment and surplus material :

1. It shall be the duty of manufactures, formulators of insecticides and operators to dispose packages or surplus material and washings in a safe manner so as to prevent environmental or water pollution.
2. The used packages shall not be left outside to prevent their re-use.
3. The packages shall be broken and buried away from habitation.
