| Wax | . | 2.00% w/w |
| Total: | | 100.00% w/w |

Recommendation

Refer Direction for use

Note:-

Good Practices relating to pesticide application techniques

Direction of Use

1. To get effective control over cockroaches, ants and bedbugs draw several thick lines of chalk around infested areas and likely to be infested in such a way that they tend to cross the line.
For cockroaches: draw crisscross lines on the floor, kitchen platforms, around kitchen sinks, cracks underneath cupboards and cabinets, refrigerators, window and door frames, bookshelves and other hiding places like cracks and crevices, harborages.
For ants: draw lines in and around the ant infested area and likely to be infested area like around the containers containing sweet material.
For bedbugs: draw lines over cracks and crevices and joints of cots, furniture etc. where bedbugs harbor and multiply.
2. Whenever possible do not wipe the chalk lines.
3. After use, wash hands thoroughly.
4. After use, place the chalk back in the pack.
