Ethion Technical 92% w/w Min

(Insecticide)

Ethion is an organophosphate insecticide. It is used to prepare Ethion based formulation

Chemical Composition:	Ingredient	%W/W
Associated Impurities	Associated Impurities	8.00% Max % w/w
Ethion active ingredient	diethoxyphosphinothioylsulfanylmethylsulfanyl- diethoxy-sulfanylidene-?5-phosphane	92.0 (min) % w/w
Total	Total	100.00 % w/w
Total:		100.000% w/w

Stages during which pesticides should not be applied on any crop :

Precautions to be taken to avoid harm to the beneficial insects like honey bees and natural enemies of pests :

1. It is toxic to honey bees, hence should not be used during active foraging period of bees.
2. It is toxic to fish and other aquatic organisms, hence should not be used near aquaculture.

Symptoms Of Poisoning

The early symptoms may be combination of headache, giddiness, vertigo, nausea, vomiting, blurred vision, sweating, excessive lacrimation and salivation. Convulsions and respiratory distress may occur.

First Aid

In case of Inhalation: Immediately move victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call doctor immediately.

In case of Ingestion: If swallowed, seek medical advice immediately. Do not induce vomiting. Never give anything by mouth to an unconscious person.

In case of skin contact: Take off all contaminated clothing immediately and thoroughly wash the affected parts of the body with plenty of water. Wash contaminated clothes before re-use.

In case of eye contact: Rinse immediately with plenty of water, also under the eyelids for atleast 15 minutes. If pain or irritation persists, consult eye specialist.

Antidote

Atropinize the patient immediately and maintain full atropinization by repeated doses of 2 to 4 mg at 5 to 10 minutes interval for hours together till symptoms continues.

Administer 1 - 2 gm of 2 PAM dissolved in 10 c.c. distilled water and inject intravenously (slowly taking 10-15 minutes).

Phytotoxicity

Not Applicable

Safety Precaution:

Store in a cool and dry place away from fire, food stuffs, empty foodstuff containers and animal feed.

2. Use protective clothing which includes long sleeved shirt and long pants, chemical resistant gloves, shoes, goggles and socks while handling.
3. Do not eat drink, smoke or chew anything while handling.
4. Wash thoroughly the contaminated clothes and parts of the body after using.
5. Avoid contamination of environment and water.

Storage Conditions

1. The packages containing the insecticide shall be stored in original containers in separate rooms or premises, away from the room or premises used for storing other articles or shall be kept in separate almirahs under lock and key depending upon the quantity and nature of the insecticide.
2. The room and premises meant for storing the insecticide shall be well built, cool, dry place, well-lit and ventilated and of sufficient dimensions.

Cautionary Statement:

dangerous to reuse empty containers

. It is toxic to honey bees, hence should not be used during active foraging period of bees.

. It is toxic to fish and other aquatic organisms, hence should not be used near aquaculture.

Disposal of used containers, washing from equipment and surplus material :

1. It shall be the duty of manufactures, formulators of insecticides and operators to dispose packages or surplus material and washings in a safe manner so as to prevent environmental or water pollution.
2. The used packages shall not be left outside to prevent their re-use.
3. The packages shall be broken and buried away from habitation.
