

# Big Label

**Read leaflet before use:**

**Common Name:**

Pretilachlor Technical 94% w/w Minimum

**BRAND NAME: -**

**Crops and Pest Groups: not applicable**

Dosage:

Direction for use:

Manner and time of application:

Not Applicable

Purpose:

it is used for preparation of approved formulations of pretilachlor technical.

Re-entry:

not applicable

**Chemical Composition :**

**Content % w/w**

Diethyl-N-2-propoxy acetyl anilide	Impurity	0.50 w/w maximum
Diethyl-N-chloroacetyl anilide	Impurity	0.50 w/w maximum
2-bromo-2-diethyl-N-(2-propoxy ethyl)acetanilide	Impurity	1.00 w/w maximum

**Pretilachlor Technical 94% w/w Minimum**

Pretilachlor Technical 94% w/w Minimum

**Selective Herbicide**

Pretilachlor Technical 94% w/w Minimum

Pretilachlor Technical 94% w/w Minimum

Keep out of reach of children.

Pretilachlor Technical 94% w/w Minimum

Keep in cool, dry place away from heat and open flame.

**Pretilachlor Technical 94% w/w Minimum**

Pretilachlor Technical 94% w/w Minimum

**Selective Herbicide**

Pretilachlor Technical 94% w/w Minimum

if ingested: if person is conscious and alert, rinse mouth with water and give 1 or 2 glasses of water to drink. never give anything by mouth to an unconscious person. call the doctor. do not induce vomiting until and unless desired by attending physician.

if inhaled: take the patient to fresh air and take care of body temperature. if patient is not breathing or breathing with difficulty, give artificial respiration preferably with mouth to mouth breathing. consult a physician.

in case of skin contact: wash thoroughly the affected part of the body with soap and plenty of water including hairs and under fingernails. if pain, redness or irritation persists, consult a doctor. all the contaminated clothes should be segregated and thoroughly washed with soap and water separately before use.

in case of eye contact: rinse gently with plenty of water for at least 15 minutes. if pain, irritation, redness or photophobia persists, consult eye specialist.

**Antidote**

no specific antidote is known. give symptomatic and supportive treatment.

Cautionary statements:

- keep away from heat and open flame
  - keep out of reach of children
  - if swallowed or symptoms of poisoning occurs call the physician immediately
  - 1) dangerous to re-use empty containers.
  - 2) destroy the container after use as directed on leaflet.
  - 3) not to be used for any purpose other than those subscribed on label and leaflets.
  - 4. Toxic to fish, hence should not be used near aquaculture.
- It is toxic to honeybees, thus should be avoided near bee keeping areas.

Not Applicable

**Manner and Time of Application**

Not Applicable

**Application Timing**

Not Applicable

**Frequency**

Not Applicable

**Stages during which pesticides should not be applied on any crop :**

**Not Applicable**

**Precautions to be taken to avoid harm to the beneficial insects like honey bees and natural enemies of pests :**

.Toxic to fish, hence should not be used near aquaculture.

**Symptoms Of Poisoning**

The poisoning symptoms are non-specific sedation, dyspnoea, exophthalmus, carped position and ruffled fur.

**First Aid**

If ingested: If person is conscious and alert, rinse mouth with water and give 1 or 2 glasses of water to drink. Never give anything by mouth to an unconscious person. Call the doctor. Do not induce vomiting until and unless desired by attending physician.

If inhaled: Take the patient to fresh air and take care of body temperature. If patient is not breathing or breathing with difficulty, give artificial respiration preferably with mouth to mouth breathing. Consult a physician.

In case of skin contact: Wash thoroughly the affected part of the body with soap and plenty of water including hairs and under fingernails. If pain, redness or irritation persists, consult a doctor. All the contaminated clothes should be segregated and thoroughly washed with soap and water separately before use.

In case of eye contact: Rinse gently with plenty of water for at least 15 minutes. If pain, irritation, redness or photophobia persists, consult eye specialist.

**Antidote**

No specific antidote is known. Give symptomatic and supportive treatment.

**Phytotoxicity**

Not Applicable

**Safety Precaution:**

Avoid inhalation and skin contact. Do not mix with bare hands. Do not eat, drink or smoke while handling or using the herbicide. While handling the herbicide, worker or user must wear protective clothing like long sleeved shirt, long pants, chemical resistant gloves, shoes & goggles.. Avoid contamination of environment and water.

**Storage Conditions**

1. The package containing herbicide shall be stored in separate room and premises away from the rooms or premises used for storing other articles particularly articles of or shall be kept in separate rooms, almirah under lock and key depend upon the quantity and nature of insecticides.

2. The rooms or premises meant for storing the herbicide shall well built, dry, well-lit and ventilated and of sufficient dimensions to avoid contamination with vapour.

**Cautionary Statement:**

**Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet "**

**keep away from heat and open flame**

**keep out of reach of children**

**if swallowed or symptoms of poisoning occurs call the physician immediately**

**1) dangerous to re-use empty containers.**

**2) destroy the container after use as directed on leaflet.**

**3) not to be used for any purpose other than those subscribed on label and leaflets.**

**4.Toxic to fish, hence should not be used near aquaculture.**

**It is toxic to honeybees, thus should be avoided near bee keeping areas.**

**Disposal of used containers, washing from equipment and surplus material :**

1. It shall be the duty of manufacturers, formulators of insecticides and operator to dispose packages or surplus materials and washing in a safe manner so as to prevent environmental or water pollution.
2. The used packages shall not be left outside to prevent their re-use.
3. The packages shall be broken and buried away from habitation.
