1. Avoid inhalation and skin contact while diluting because of spillage or splashes. 2. Do not mix with bare hands. 3. After each operation, the mixing and spraying equipment is to be rinsed thoroughly with plenty of water and detergent or soap solution before being put to use for spraying other pesticides. 4. Any surplus spray solution must not be disposed off in crop lands in stagnant or flowing water, where there is a possibility of polluting water sources. 5. The user should use full protective clothings which include rubber gloves boots, either face shield or dust mask and overall rubber apron, hood or hat. 6. Do not smoke, eat or drink during handling and application.

**Symptom of Poisoning:**

Headache, Nausea, Vomiting, irritation & allergy may occur.

**First Aid:**

1. If swallowed, induce vomiting by tickling the back of throat. 2. If skin and clothes are contaminated, wash the contaminated skin and clothes with plenty of water and soap. 3. If eyes are contaminated, flush the contaminated eyes with normal saline and water for 10 to 15 minutes. 4. Remove the patient into fresh air.

**Antidote**

treat symptomatically.

**Cautionary statements:**

1. Not to be used for any purpose other than those subscribed on label and leaflet 2. Destroy the container after use as directed on leaflet.

Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet

**Trichoderma harzianum 1.0%WP strain Name:ILHR-Th-2, ITCC-6888**

( Insecticide )

2 x 10<sup>6</sup> gm.min

It is an eco friendly bio fungicide which is used to control disease in tomato and okra crops.

<b>Chemical Composition:</b>	<b>Ingredient</b>	<b>%W/W</b>
	Total	100.00% w/w
Carboxy methyl cellulose	Carboxy methyl cellulose	01.00% w/w
Talc powder	Talc powder	98.00% w/w
Trichoderma harzianum 1.0%WP	Trichoderma harzianum 1.0%WP strain Name:ILHR-Th-2, ITCC-6888, CFU: 2x10 <sup>6</sup> /gm.min.	
<b>Total:</b>		<b>100.00% w/w</b>

**Recommendation**

<b>Crop(s)</b>	<b>Common Name of Pest</b>	<b>Dosage/HA</b>		<b>Dilution in Water</b>	<b>Crop Stage</b>	<b>Re-entry Period</b>	<b>Pre Harvest</b>	<b>Frequency</b>
		<b>AI</b>	<b>Formulation</b>					
Carrot	Root-knot nematode (Meloïdogyne incognita), blight causing fungi (Sclerotium rolfsii)		Seed treatment-20g/kgseed and Soil treatment - 5tons of FYM enriched with 5kg Trichoderma harzianum 1% WP per hectare before sowing					
Tomato	Root-knot nematode (Meloïdogyne incognita), Wilt causing fungi (Fusarium oxysporum f.sp.lycopersici)		Seed treatment-20g/kgseed ;Nursery beds-50g/sq.m;Soil treatment - 5tons of FYM enriched with 5kg Trichoderma harzianum 1% WP per hectare before transplanting					
Brinjal	Root-knot nematode (Meloïdogyne incognita), Wilt causing fungi (Fusarium solani)		Seed treatment-20g/kgseed ;Nursery beds-50g/sq.m;Soil treatment - 5tons of FYM enriched with 5kg Trichoderma harzianum 1% WP per hectare before transplanting					
Okra	Root-knot nematode (Meloïdogyne incognita), Wilt causing fungi (Fusarium oxysporum f.sp.vasinfecum)		Seed treatment-20g/kgseed and Soil treatment - 5tons of FYM enriched with 5kg Trichoderma harzianum 1% WP per hectare before sowing					

**Note:-**

Good Practices relating to pesticide application techniques

**Direction of Use**

Treat the seeds and nursery beds with Trichoderma harzianum and also and also treat the soil before sowing / transplanting.

**Weather Condition(in general):**

**Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet "**

**Slurry Water (where ever applicable):**

Any type

**Crop Stage for application:**

**Application Technique**

Seed treatment and soil treatment .

**Equipment Type:**

**Seed treatment drum, Knapsack sprayer**

**Nozzle Type:**

-

**Dosage:**

As per recommendation

**Instruction for Mixing:**

-

**Re-entry Period**

**Manner and Time of Application**

Before sowing / transplanting.

**Application Timing**

Morning and evening

**Frequency**

**Stages during which pesticides should not be applied on any crop :**

**Seed treatment**

**Precautions to be taken to avoid harm to the beneficial insects like honey bees and natural enemies of pests :**

-

**Symptoms Of Poisoning**

Headache, Nausea, Vomiting, irritation & allergy may occur.

**First Aid**

1. If swallowed, induce vomiting by tickling the back of throat. 2. If skin and clothes are contaminated, wash the contaminated skin and clothes with plenty of water and soap. 3. If eyes are contaminated, flush the contaminated eyes with normal saline and water for 10 to 15 minutes. 4. Remove the patient into fresh air.

**Antidote**

Treat Symptomatically.

**Phytotoxicity**

The product is not phytotoxic when used as per field recommendation.

**Caution: Not to Be Used on Crops Other Than Specified on This Label/Leaflet "**

### **Storage Conditions**

1. The packages containing the material shall be stored in separate rooms or premises away from the rooms of premises used for storing other articles particulars articles of food or shall be kept in separate almirahs under key and lock depending upon the quantity and nature of the material. 2. The rooms or premises meant for storing the material shall be well built. Dry, well lit and ventilated and of sufficient dimension to avoid contaminated with vapour

### **Safety Precaution:**

1. Avoid inhalation and skin contact while diluting because of spillage or splashes. 2. Do not mix with bare hands. 3. After each operation, the mixing and spraying equipment is to be rinsed thoroughly with plenty of water and detergent or soap solution before being put to use for spraying other pesticides. 4. Any surplus spray solution must not be disposed off in crop lands in stagnant or flowing water, where there is a possibility of polluting water sources. 5. The user should use full protective clothings which include rubber gloves boots, either face shield or dust mask and overall rubber apron, hood or hat. 6. Do not smoke, eat or drink during handling and application.

### **Cautionary Statement:**

**1. Not to be used for any purpose other than those subscribed on label and leaflet 2. Destroy the container after use as directed on leaflet.**

### **Disposal of used containers, washing from equipment and surplus material :**

1. It shall be the duty of manufactures, formulators of insecticides and operators to dispose packages or surplus material and washings in a safe manner so as to prevent environmental or water pollution.  
2. The used packages shall not be left outside to prevent their re-use.  
3. The packages shall be broken and buried away from habitation.
