	certain data on chemical composition, efficacy and toxicity is required to be generated as per the guidelines to establish safety and efficacy of the product.
2.2	Presentation by M/s Shobika Impex Pvt. Ltd.,
	<p>In terms of the RC decision taken in its 458th meeting at <i>Agenda Item no 10.59: Follow up action an agenda item no. 6.2, 10.1, 10.21, 10.31, 10.6, 10.50, 6.46 and 10.24 of 444th, 445th, 450th, 451st, 452nd, 454th, 456th and 457th RC meeting respectively regarding the consideration of the grant of registration for Alphacypermethrin LLIN 0.58% of M/s Shobikaa Impex Pvt. Ltd.</i>, the applicant M/s Shobikaa appeared before the RC. The experts from ICMR, NCVBDC and others were also present during the presentation.</p> <p>The applicant was represented by his Ld. Counsel Mr Ankit Virmani along with Mr. Ashutosh Srivastava, its authorized representative. NCVBDC was represented by Dr. Rinku Sharma, Joint Director and also by Dr. Kalpana Barhua, Consultant through VC mode. VCRC/ICMR and NCDC were represented by Dr. Manju Rahi and Dr. Himmat Singh, respectively. The Ld. Counsel for the applicant also submitted a copy of the written representation during the RC meeting which was taken on record. The Ld. Counsel has inter alia submitted that the entire issue had already been addressed and adjudicated by the Hon'ble Appellate Authority in Appeal No 01/2022 and after a detailed hearing a reasoned order dt 21.3.2022 has been passed and therefore it shall not be appropriate to reopen the issue. It was also submitted that the findings arrived at by the Appellate Authority are final and binding on the RC. The Counsel further submits that the Phase III trials were conducted after due approval from NCVBDC by NCDC at a concentration of Alphacypermethrin 0.58% w/w and the report of the same has been forwarded by the trial conducting authority i.e. NCDC to NCVBDC and any loss of original report by them is having no bearing on the applicant and the applicant has no role to play in the matter. It is also submitted that the copy of the said report was supplied by NCDC to the M/s Shobikaa. The Counsel further submits that now the issue is sought to be projected that the original report is not available with the concerned trials approving and conducting Authorities and therefore raising a question on the genuineness of the Phase III trials itself. It is also stated that the RC has itself submitted before the Appellate Authority that the Phase III trials has been conducted at a concentration of 0.58 % w/w. The Counsel states that no fault can be attributed to the applicant for the loss of the said report by the concerned Authority. He submits that although out of the received two copies of reports from NCDC the applicant during the pendency of the above matter has sent one copy of the report to NCDC and one copy is in his possession which he is ready and willing to produce before the RC if so desired.</p> <p>Inter alia the submissions made in the representation the Ld. Counsel had submitted that grave prejudice is caused to the applicant and the matter is already delayed and thus requested to approve the registration application regarding Alphacypermethrin 0.58 LLIN u/s 9(3) of the Act and thus comply with the Order 21.3.2022 of the Appellate Authority</p>

and further the Order dt 27.3.2024 passed in W.P. No. 7813/ 2024 by the Hon'ble High Court of Madras, (Madurai Bench) and thus render justice.

Per contra the representatives of NCVBDC have submitted that the Phase-III trial report which has been conducted by NCDC has not been reviewed by NCVBDC as required under the applicable SOP and therefore, cannot be relied upon by M/s Shobikka w.r.t. its captioned application for the subject substance before the CIB&RC. All of the stake holders were also having a similar view and have raised the objections that the NCDC has obtained the copy of the study report from M/s Shobikka and forwarded it to NCVBDC and it appears that the NCDC does not hold the original copy of the report which casts doubts on the authenticity of the report and this fact was also highlighted during the 456th RC meeting at agenda item no. 6.46. It was submitted that the Phase-III trial was conducted at three new locations which differs from the sits of NIMR studies. Further M/s Shobikka has changed the concentration of the product Alphacypermethrin from 0.55 to 0.58. It is submitted that M/s Shobikka has not followed the established guidelines and there was inconsistency. M/s Shobikka has thus flouted the protocol and SOP established for registration by misapplying tolerance limits, misclassifying outdated studies and submitting unverified and improperly conducted Phase-III trial reports. It is also additionally submitted that M/s Shobikka has incorrectly attempted to classify 2010-2011 NIMR filed trial of Duranet LLIN conducted with 0.55% w/w Alphacypermethrin concentration as Phase-II study which was recalled by the NIMR observing that this study cannot be termed as Phase-II study of the subject substance. *Inter-alia* other submissions the representatives/stake holders have requested that the regulatory standards should be complied and the application for registration of M/s Shobikka may be again critically examined in view of the protocols and SOP for public health products before granting of the registration for the said LLIN.

After hearing the submissions advanced by both the applicant and the stakeholders certain queries were put to the applicant M/s Shobikka in the context that since the matter has been remanded back by the Appellate Authority therefore, whether the technical observations made by the Appellate Authority in its order are to be treated as final and as to whether RC is precluded from further scientifically examining the matter and as to whether the Appellate Authority can enter into the deeper technical aspects involved in the matter.

RC also asked M/s Shobikka as to whether the applicant was justified in applying for registration u/S 9(3) of the Act for LLIN having Alphacypermethrin concentration of 0.58% w/w even though the applicant had earlier obtained provisional registration u/S 9(3B) of the Act at concentration of 0.55% w/w which was commercialized by them for five years.

Further, RC posed several queries regarding the reliance placed and also relevancy and admissibility of Phase II and Phase III trial reports in respect of their LLINs having Alphacypermethrin concentration at 0.58% w/w. The Learned Counsel for the applicant on instructions has assured that an appropriate reply shall be submitted at the earliest.

	<p>RC is aware that the technical and factual issues involved in the matter are complex and needs in-depth technical scrutiny as it relates to public health. RC is also aware that the matters are being dealt on the directives of Hon'ble High Court of Madras (Madurai Bench) and the RC has to take a final decision in the matter keeping in view the safety aspects of the public health product as well as the rights of the applicant to carry its trade. RC has been also informed that the applicant M/s Shobikaa had submitted its additional submissions vide an email communication dated 08.10.2024 with a copy of the same to the stakeholders present. RC has also been informed that a brief written note has also been received from ICMR/VCRC on the issues involved and submissions made during the course of the present RC proceedings. In order to serve the ends of justice and procedural fairness RC is of the view that the entire pleadings/submissions received from M/s Shobikaa and the stakeholders should be shared to all the parties and in case any further rebuttal the parties wish to make the same may be made well in advance.</p> <p>The concerned expert of the CIB&RC is directed to look into the entire submissions made by all the parties and examine the same in context of the records available at Sectt. of CIB&RC. RC makes it clear that after the above compliances the RC shall take a final decision based on the material available on record on its individual merits. RC also desired that the applicant and all the stake holders to be present in the next RC meeting to assist the RC in taking an appropriate decision with a view to comply with the orders of Hon'ble Appellate Authority and further the directions of the Hon'ble High Court of Madras (Madurai Bench).</p>
