CIRCULAR

All stakeholders are herewith informed that they may use Methyl Bromide for fumigation treatment for exporting peanuts to Vietnam. The dose requirement as per NPPO- Vietnam is 100 g. /cu. m. for 72 hours at 21°C or equivalent at NAP. This provision shall be in force with effect from date of issue of this Circular.

All other conditions stipulated in SoP for export of peanuts, as amended from time to time, shall remain unchanged and continue to be in force.

Further, it must be noted that this use of Methyl Bromide is subject to compliance of all conditions stipulated in NSPM-11 and NSPM-12.
